"Fighting with the Saber and Cutlass" is really not for people who are only interested in gaining dexterity in sport fencing or the learning the superficial choreographic techniques used for stage and screen. There are plenty of resources available on the market for learning those skills. This DVD set is designed as a serious, straightforward, and focused course that deals solely with the combative use of the saber and cutlass.

The series begins by illustrating how to properly oppose an opponent who is armed with a weapon that is similar to your own. This is the best way to build the necessary foundation of skills, techniques, and eye-hand coordination that will allow you to oppose a wide spectrum of adversaries who are armed with all kinds of street weapons.

After learning and refining your basic skills you will be ready to progress to the seldom taught subjects of infighting, grappling, and brawling with a saber. There is even a section on how to throw a saber with great effect in a combat situation.
