Godfred Viking sword named for the feared 8th century Viking raider, our Godfred Sword (SH1010) is built around a beautifully patterned folded steel blade to replicate the pre-9th century originals. The interwoven leather grip, complemented by a Damascus guard and pommel, is matched by the leather-covered wood scabbard with bronze detailing and integral belt hooks. Superbly balanced, due to the deeply fullered distal tapered blade profile, the Godfred is a true tribute to the legendary Norse smiths.
