Incorporating a blend of the features of the Katanas in our popular Classic Series and those in our new Performance Series, the swords in our Elite Series embody a careful blend of form and function. As in the Classic Series, the swords have an upgraded standard of blade polish and other refinements in detail while changes in blade design have been introduced to enhance cutting performance.

The Practical Plus Elite Katana provides a very economical cutting sword as dependable as the Practical Elite Katana (SH6000KPC), but using more traditional fittings and construction methods. The blade is forged and differentially tempered (HRC60 edge, HRC40 back) and the hamon is prominent. The Practical Plus Elite features genuine Same (Rayskin) on the Tsuka, with a tightly-woven cotton wrap (Tsuka-Ito). The long tang is double-pegged for security. The fittings of the Practical Plus Elite are decorated in a Japanese Dogwood motif with dragon menuki, and the handsome Tsuba is of an iron "sunburst" design with a brass habaki.

Product parameters:

- Total length: 102 cm
- Blade length: 70,5 cm
- Blade thickness: 6 mm
- Blade width: 3,5 cm
- Point of balance: 12 cm
- Weight: 1,15 / 1,45 kg
