

Plain Buckler

Category:

Product ID: ULF-SD-04-L

Price: 72.00 EUR

Availability: Out of stock

See it in our store.

Bucklers, shields gripped with the fist, were frequently used in combination with single-handed swords from the high middle ages to the Renaissance. They are useful for shielding from, as well as giving out blows. Our ULFBERTH® bucklers are available in three sizes (S, M, L). The handles are riveted and wrapped in leather.

Product parameters:

- Diameter: 38 cm
- Thickness: 2 mm
