The Tori katana combines truly elegant furniture and a powder-steel folded blade with the functionality of our Performance Series. The Tori features a "Flying Crane" themed Tsuba and Fuchi/Kashira while the Menuki are Kabuto or Japanese helmets. The high quality brown leather Tsuka-ito is wrapped over black Same. The Saya is wrapped at the mouth with black-lacquered rattan and then finished in a textured brown. The Tori is available in three folded steel cutting blade profiles and three Iaito blade lengths. Competitive Cutting / Lighter Weight- the XL Light blades feature the same geometry as those of the XL but incorporate deeply cut grooves (bo-hi) to reduce the weight of the blade while retaining most of its strength and cutting ability. This weight reduction makes for a quicker sword, well adapted for multiple cuts in lighter targets.

Product parameters:
