The light cavalry saber is features a long, gently curved blade that would have been just as effective on horseback as it would have on foot, serving in equal capacity as a slicing and a stabbing weapon. Sabre features a stainless steel blade, and a wire-wrapped handle that provides a secure grip. Also features a classic saber's guard, which keeps the hand safe while the saber is held. Comes with a steel scabbard set with two rings, which means that this sword can actually be worn at your side with the proper suspension system.
